

SCADA User Group Meeting REPORTING

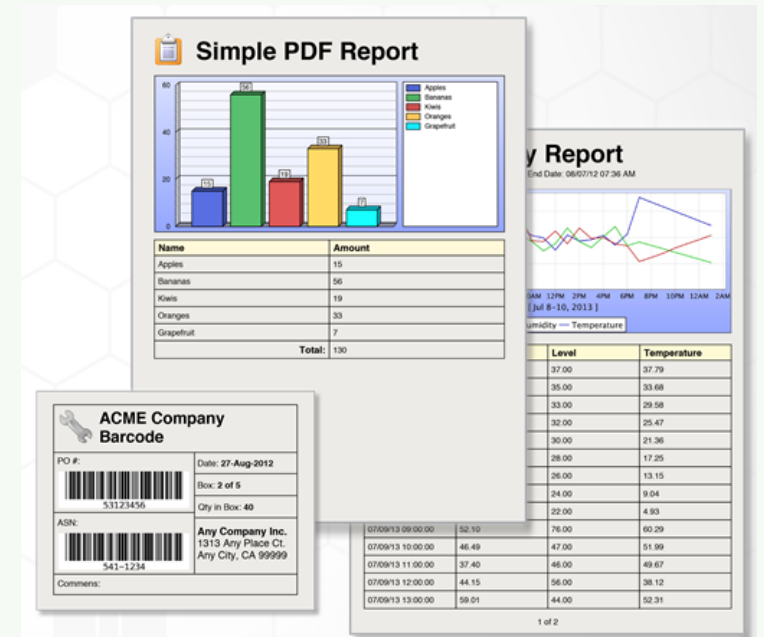

Derek Glynn, COO & CTO, EMR Integrated Solutions

Reporting – Available today

- Compliance report generation
- Performance and maintenance reports
- PDF, Excel and Word file formats
- Automatic generation of scheduled reports via email
- Integration with multiple data bases (GIS/Finance/Lab)
- Event triggered reporting with Sequence of Events (SOE) and post-event log

Reporting – Available today

- Imbedded
- Reports can be generated in real time, on demand or scheduled time
- Dynamic Reports - create dynamic reports to suit your needs without redesign
- Create reports that automatically show users the information pertinent their needs or pre-determined areas and times-of-interest
- Utilise your existing forms for consistency
- Move to Paperless Office

Reporting – Going Forward

Discussion

Reporting – Going Forward

- Does the reporting function meet your needs today?
- What improvements could be made?
- What Reports are you being asked for?
- Are reports meaningful?
